2 oz. (4 tbsps) olive oil (or sunflower oil or sweet almond oil)
4 oz. coconut oil
4 oz. shea butter
4 oz. beeswax

Place all ingredients in a small saucepan over low heat. Stir until everything is completely melted. Pour into containers and cool. I recommend plastic containers if you plan to carry paw wax with you into the backcountry. To use, warm the paw wax with your fingers and rub it onto your dogs paw pads. For winter use, rub the paw wax on the paw pads and on the fur between and around the pads. Use within 1-2 years. Makes 14 ounces.
