

Milk Tea Boba

<http://userealbutter.com/2011/01/18/milk-tea-boba-recipe/>

1 tsp black tea

8 oz. water, boiling

sugar (optional)

1/4 cup boba (pearl tapioca), cooked per package instructions

ice

milk (optional)

Steep the tea leaves in a cup of boiling water to desired strength (about 5 minutes for me). Remove the tea leaves. If you want your tea sweetened, add sugar to taste. Let the tea cool. Place the boba in a large glass. Fill the glass with ice. Pour the tea over the ice. Top with milk. Makes one 16-ounce serving.
