

Pear Ginger Beer Cocktail

<http://userealbutter.com/2011/10/31/pear-ginger-beer-cocktail-recipe/>

2 oz. [pear liqueur](#)

1 bottle (~12 oz.) ginger beer (I prefer [Rachel's Ginger Beer](#) which might be hard to find right now, or [Bundaberg Ginger Beer](#))

2 lime wedges (a wedge is 1/6th of a lime)

ice

Fill a high ball glass with ice. Pour the pear liqueur over the ice. Squeeze a lime wedge over the ice. Top off with a good ginger beer (don't use ginger ale – it is totally different and inferior). Serve with a wedge of lime. Makes one cocktail.
